Code Coverage Report

Student Attendance Management System (SAMS)

Project	Student Attendance Management System (SAMS)
Version	1.0
Authors	Atul Kandiyil (PES2UG24CS920), Riona Jeena Dsouza (PES2UG24CS654), Amit (PES2UG24CS624) - Team 1
Date	06-11-2026
Build tested	main branch, commit 33cdb28, plus the new test files
Environment	Python 3.12.3, Django 5.2.18, SQLite, Linux

Test Engineer	Amit	

1. Introduction

This report shows how much of the SAMS source code is run by the automated tests. It was measured with coverage.py 7.17.2. The settings are in `.coveragerc` in the root of the repo.

The measurement covers the four packages `accounts`, `administration`, `attendance` and `config`. We left out migrations, the test files, manage.py, the wsgi/asgi files, the `scripts` folder and the `seed_demo` demo command. The demo command is used in the system validation run but not by the unit tests.

2. Summary

Statements	428
Covered	422 (98.6%)
Missed	6
Statement and branch coverage combined	98.2%
Tests run	83

Before this round coverage was 83% with 20 tests. With the 83 tests it is now 98%. Every file in `accounts`, `administration` and `attendance` is at 100%.

3. Coverage by file

File	Statements	Missed	Covered	Missing lines
accounts/**init**.py	0	0	100%	-
accounts/admin.py	7	0	100%	-
accounts/apps.py	4	0	100%	-
accounts/models.py	10	0	100%	-
accounts/urls.py	3	0	100%	-
accounts/views.py	55	0	100%	-
administration/**init**.py	0	0	100%	-
administration/admin.py	6	0	100%	-
administration/apps.py	4	0	100%	-
administration/models.py	29	0	100%	-
administration/urls.py	3	0	100%	-
administration/views.py	10	0	100%	-
attendance/**init**.py	0	0	100%	-
attendance/admin.py	10	0	100%	-
attendance/apps.py	4	0	100%	-
attendance/models.py	40	0	100%	-
attendance/services.py	45	0	100%	-
attendance/urls.py	3	0	100%	-
attendance/views.py	147	0	100%	-
config/**init**.py	0	0	100%	-

config/settings.py	36	6	83%	92, 162, 163, 164, 165, 166
config/urls.py	12	0	100%	-

4. What is not covered

All the missed lines are in the config package.

Location	What it is	Why it is not covered
config/settings.py, line 92	The MySQL DATABASES setting	The tests run on SQLite and no MySQL server was available (OBS-03)
config/settings.py, lines 162 to 166	The "if not DEBUG" block with the secure cookie settings	DEBUG is hard-coded to True so this block can never run. This is DEF-02

5. Files

Open `docs/reports/coverage_html/index.html` in a browser to see every line highlighted. The same data is in `coverage.xml` and `coverage.json`.
